The derivation is given in Appendix E, which sets out the made-up method in full, and the result is set out in Appendix E. In the following pages the method is made up as we go, and its result is shown as in Figure 4 of the results, which comes later. As it says in the text, Figure 4. As the made-up result shows, the beam bends. That is all there is to say about it on this page.

A page with a made-up result on it.

Figure 4: The made-up result, as a caption.

Appendix E Made-Up Derivations

The made-up derivation follows here.
